

October News

Everything is going well in our class! We continue to emphasize the importance of being responsible, respectful, safe, and excellent. In addition, we are working on having a growth mindset-- to be better than we were from the previous day (that includes me too)!

October 14th
No School for Students

Reminders

Please check your child's folder and take out the papers on the Keep side. The assignment sheet should be signed each night and returned to school each day. A new assignment sheet is placed in each student's folder at the beginning of the next week.

Learning Focus

Reading/Language Arts:

The students continue to work on different sounds and spellings each day. We use these new sounds to practice blending, reading, and spelling. The blending strategy is an excellent way for readers figure out an unknown word. Please be sure to read the decodable books sent home each night. These books are great for practicing decoding strategies, but they are also great for the more advanced readers to practice reading fluently. When students are reading fluently, they read smoothly, at an appropriate pace with good style and expression. The more you practice, the better you get!
